

Hello, my name is Christina Koenig, most call me Chrissy. I have lived in Holly by the Sea for six years. You may know me from the gym or the tennis courts. For the past six years, I have been lucky enough to be a stay at home mom. I have two beautiful children. Charlie is 5 and will be attending kindergarten next year, God help West Navarre Primary. Sophia is a year and a half and already smart enough to know where the chocolate is hidden. My husband is in the process of separating from the Air Force to join the Reserves, granting me my wish to stay in Navarre.

I have decided to use my time to apply for the Holly by the Sea Board of Directors. I have been an integral part of our society and feel that my longevity in Northwest Florida gives me a good understanding of how to be a productive Board Member. I have some peripheral knowledge of what is going on in our community and am looking to delve in deeper and do my part in making a difference. I want desperately to see improvements made to our facilities and am willing to put in the time to see it through. For example, I want to create more programs and activities for our children here at the Holly by the Sea Recreation Center.

Below you will find a condensed version of my resume:

Christina Koenig

Bachelor of Science in Hotel, Restaurant, and Institutional Management
Pennsylvania State University, 1997

Chartwell's, University of Miami (Subsidiary of The Compass Group)

Assistant Director of Food Services 1997 – 1999

- Part of a team responsible for the daily food service operations totaling more than one million dollars in the University Of Miami Hurricane Food Court.
- Co-Supervised up to one hundred employees while directly supervising twenty.
- Responsible for preparing, maintaining, and completing the budget for three separate kiosks: a deli, the salad bar and a Starbucks.
- Coordinated special catering events.

Chartwell's, St Louis University (Subsidiary of The Compass Group)

Director of Food Operations 1999 – 2002

- Assigned a major new account at St Louis University. Chartwell's was awarded the food service at a trial location on campus, with the entire University as a prize. As a direct result of my efforts in negotiating, coordinating different events and superior customer service, Chartwell's was granted the multimillion dollar contract.
- Traveled the area helping where needed, filling in open accounts until permanent Directors could be placed.

This is where my career with Chartwell's ended. My husband received a permanent change of station to Hurlburt. We spent a year training in Little Rock, AR and then at Albuquerque, NM. Finally in April of 2003, we moved to Holly by the Sea. I have spent the last 6 years creating a family and developing a network of friends that could never be replaced.

I believe that my passion for the betterment of the community, my skills in negotiating, my ability to multi-task and coordinate many things at once make me an ideal choice to serve on the Holly by the Sea Board of Directors. Thank you for your consideration.
